

Who are we?

London Academy of Management and Technology is an independent e-learning education and training establishment specializing in various Management, Technology, and Leadership courses at Bachelor, MBA, undergraduate, and postgraduate levels, including English language programs. All the programs are delivered by using the best online platforms.

Our programs offer the knowledge, skills, and values needed to succeed in the international job market, embellishing any student's employability and becoming an ingenious entrepreneur.

Each course is tailored specifically to the needs of today's students, with flexible start dates throughout the year, competitive fees, and scholarships making it more vibrant. This makes L ideal for anyone embarking on their career or as an alternative route to a degree, postgraduate or professional qualification. London-ATM can allow you to fast-track a degree, including a final year at university, instead of the usual three years or more, saving you time and money. All our pathway programs are qual approved and have several progression routes to traditional UK universities. Our International MBA and other Master's programs are fully accredited, and these have been specially designed for working professionals from around the globe.

The rigid characteristic of London-ATM is the local-to-global approach in the provision of our degrees and courses. Student exchange programs and internships with multinational companies highlight this unique student experience.

Our courses are premeditated by foremost experts and in partnership with employers. Whichever subject you choose to consider, our systems are designed to apply your developing expertise to real-life projects, so you'll be ready for the world of work. The cost of these programs is up to 90% less than the mainstream traditional Universities.

Why choose LONDON-ATM as your learning partner?

Our team at LONDON academy realizes that students these days have many options when it comes to selecting their education provider. However, at LONDON academy has identified a niche in the market by creating an online learning platform with four awarding bodies to choose from team at LONDON academy decorum is the invaluable cultural richness of our veteran faculties who hail from across the globe

Our Vision:

To be a recognized leader in quality education services, an education provider of choice for career commencement and professional development, and a North American education platform.

Our mission:

To provide practical and innovative educational environments and develop professional competencies for the future workforce of local and international communities and hence optimizing individual and organizational performance

Our Leadership

Teachers are leaders all day. They lead by example in the way they act, speak, and behave. They lead their students through challenging activities and rigorous learning. Then, they take on additional teacher leadership roles inside and outside the classroom. Activities, events, and extracurricular programs are what build positive school culture and often require additional leadership support from teachers.

Build leaders!

Endless academic and social opportunities for students within schools benefit from teacher initiative and leadership capabilities.
